TEAMQUEST ACQUIRED PURESHARE!

TeamQuest is the global leader in:

- Infrastructure Monitoring
- Capacity Planning
- And now... Business Value Dashboards!

WHY PURESHARE?

TeamQuest is committed to helping IT organizations proactively manage their infrastructure to optimize the delivery of services to the business. The acquisition of PureShare takes those capabilities to a new level, enabling customers to elevate their I&O maturity and optimize their infrastructure based on the business value it delivers.

BEST-IN-CLASS

The acquisition pairs TeamQuest's best-in-class data collection and analytics with PureShare's best-in-class business value dashboards, creating a complete solution unmatched in the industry. Enterprises around the world trust TeamQuest solutions to proactively improve latency, mitigate financial risk, and reduce cost. Now, with the acquisition of PureShare, TeamQuest offers the leading I&O BVD solution, enabling management to clearly see the business value delivered by their IT organization.

TeamQuest

Infrastructure Monitoring, Capacity Planning & Business Value Dashboards

TeamQuest Performance Indicator (TPI):
A single number that summarizes workload health

HISTORICAL SERVER HEALTH (AUTOPREDICT)			PHYSICAL SYSTEMS				
Physical System	Logical System	AutoPredict Policy	Lowest TPI	Time of Lowest TPI	Critical Frequency	Warning Frequency	Normal Frequency
mkvm18.tqsscreenshot.com	tempuse1803	AutoPredict Health and Risk Agents 20150327	10.13	Mon Jul 13 01:00:00 CDT 2015	21	0	294
mkuse7x64		AutoPredict Health and Risk Agents 20150327	17.91	Sat Jul 11 00:00:00 CDT 2015	3	11	52
mkcol4		AutoPredict Health and Risk Agents 20150327	34.27	Sun Jul 12 00:00:00 CDT 2015	3	0	63
