

TTS 2012

ACCELERATE BUSINESS • OPTIMIZE IT

TTS USA 2012

Technology Summit: April 22 – 24

Training: April 25 – 26

Bonita Springs, FL

Register at www.teamquest.com/tts

Accelerate Business. Optimize IT.

Join us at TTS 2012 and learn how to accelerate business by optimizing the performance and capacity of your IT environment. Session topics include:

- Maximizing the business value of IT
- Managing cloud and virtualized environments
- Capacity Management trends and best practices
- Getting more from your Capacity Management software

Join the Journey to value-oriented maturity.

Attend case studies and how-to sessions on how to leverage your Capacity Management software for greater gains in efficiency and productivity. Learn what steps will lead your organization toward more mature processes that enable more informed decision-making and improved alignment with business objectives.

Network, share and learn.

Hear from industry analysts and IT leaders. Attend sessions and network with peers that face similar challenges. Learn from others' experiences. It's powerful.

Improve service quality while cutting costs.

Minimize the time spent scrambling to solve problems that could have been avoided through upfront planning. Know before your applications go into production that service levels will be met. Spend more time launching new, revenue-producing apps.

An Incredible Value!

Early bird registration fee through January 31: \$650

Standard registration fee after January 31: \$750

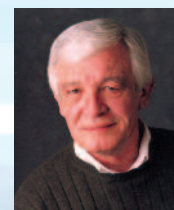

Registration includes:

- Admittance to all TTS sessions
- Hotel stay for three nights
- All meals
